*Approve Oct 2012 Meeting Minutes: Minutes approved

Officer Reports:
President – Ricky Lara
- ESA
- Grad Student Survey: The survey should be ready by January. It will be a survey on various aspects of the department to get an idea of graduate student satisfaction as far as courses, mentoring, etc. Input might also be put in from ISAC. Melissa Gomez will administer the survey. Please email our president, Ricky Lara, if you have further questions.

Vice President – Kim Hung

Treasurer – Amelia Lindsey

Minister of Truth – Debbie De La Riva

EGSA Representatives:
GSA Representatives: Kevin Welzel
- GSA meeting: The last GSA meeting did not bring up any new topics. It was mostly “housekeeping, new officers” and such. Meetings take place on the second week of the month. Ricky will look into having our EGSA meetings at a date following the GSA meeting.

ISAC Representative: Genevieve Tauxe
- New procedure for annual progress reports: Students who have not submitted their annual progress report (typically completed at the end of spring quarter) will not be able to enroll in classes in the fall or subsequent classes. This will affect funding, as you will not be considered a full-time student.

- Proposed grad student exchange program: Swap a student with another Entomology department for a 2-3 day visit, during which the visitor meets with grad students and faculty and possibly gives a seminar (if they are an advanced student). Please email Genevieve at genevieve.tauxe@email.ucr.edu with thoughts, suggestions, or comments. There will be an announcement to come as to the party that will be financing this program, but there are definitely some students that are interested in participating.

Committees:
We’ll go through each committee and take care of new and old business:

1) Craft Fair Committee–
Debbie, Amy (Co-Chairs): The Entomology Craft Fair is scheduled for Thursday, November 29th. It will run from 10am-3pm. The committee is in need of volunteers to help with set-up, clean-up and duties during the event. The sign-up sheet is posted on the door outside of the student mailroom. The committee is also looking for someone who would be willing to donate this year’s Craft Fair Prize. Please email Debbie, ddela005@ucr.edu, or Amy, alock001@ucr.edu, if you are interested.
2) Exam Committee – 
Parry (Chair): The exam binder is now available for checkout in the Visscher Lab with Parry. Send Parry and email if you are interested in checking it out. Exam materials can be given to either Parry or Aviva.

3) Merchandise Committee –
Kim Hung (Chair):
- Merchandise: T-shirt winner announcement! Congratulations to the winner of the parasitoid design! Shirts will be ready in time for the craft fair.
- Pomona insect fair sold $120. Thanks to Max and his outreach crew. Some decals were lost at the event and it is suspected that they might have been mistaken for free items. Those helping out with merchandise will need to use the receipt book from now on. There was a suggestion to start using color-coded items differently with stickers at future events to make tallying purchases easier. This is the same idea as to what occurs at organized garage sales.

4) Recruitment Committee –
Aviva Goldmann (Chair):

5) Seminar Committee –
Chrissy Mogren & Amy Murillo (Co-chairs):
- Lunch with speakers: Once the quarter schedule goes out, you are welcome to reserve a lunch spot with the speaker well in advance. This can only be done once per quarter. As far as the weekly lunches, you are still welcomed to join even when the spots for the paid lunches have all been taken.
- Aviva joins committee: She will take over Chrissy’s spot when Chrissy leaves the committee after the summer.

6) Social Committee –
Max Collignon (Chair)
- Fall Socials? The fall social is scheduled for Friday, November 30th and is to be a chili/pie cook-off. It will take place on the first floor entomology lobby. An email will be sent out shortly, announcing the event.

7) Technology Committee –
Max Collignon (Chair)
- Room inventory necessary to get new equipment: A survey will be sent out soon to the students in order to gauge how frequently the computer room is being used.

8) Carrizo Plains Committee –
Adena Why (Chair)
- Carrizo Plains National Monument trip: 6/22-6/26/2013: This will be an overnight collecting trip in order to help the members at the site acquire specimens from the surrounding habitats for an insect related exhibit. Students will be allowed to set up any type of traps necessary. They have offered the student rate at $15 per person, which will give you access to a room and bathroom with showers. There is also a lodge and a hot tub on site. Adena is looking for someone to volunteer the use of a large vehicle or truck that can be taken on the night collecting trips. A question was also brought up as to whether funding for the trip could come from the EGSA budget or to get some involvement from FERM. A vote will be taken at a later meeting for the use of the EGSA funds.
NEW BUSINESS:

1. Salvation Army Angels Donations: The department sponsors two low-income families each year by providing them with presents for their children as well as gift cards to be used for the needs of the family. Food donations are welcomed. Keep this in mind during your Black Friday shopping this month. A gift-wrapping party will take place in the large conference room once all the gifts are assembled. There will also be a need for volunteers to drop off the wrapped gifts at the Salvation Army.

2. Next meeting December 3, 2012 (tentative)

3. Other items that were brought up:
   a. Linnean Games members are needed to begin practicing for the games at the next Pac Branch meeting in Tahoe. This is an excellent opportunity for new students.
   b. Training is also to come for students in order to demonstrate the proper care of the outreach specimens. The walking stick population is looking better.
   c. If you want access to one of the Visscher observation hives for outreach or teaching you will need to notify Parry well in advance.

Carrizo Plains National Monument Trip Information

Howdy Fellow EGSAers,

We have received special permission for us to collect at Carrizo Plains National Monument, which is a 5-hour drive north of Riverside. The agreement is that we will conduct a Bioblitz-like event from June 22-26, 2013 in return for not needing to acquire federal or state collecting permits. As part of this agreement, we will put together an insect collection for an educational display at Carrizo Plains; this is thus an outreach opportunity (note that you do not get outreach hours for this). Remaining specimen material can be kept by individual collectors or deposited in the Entomology Research Museum.

Participants will be expected to collect and curate specimens. We will set up various traps (malaise, pan, light traps, etc.), as well as sweep, aerial, and aquatic collecting. Expect to collect about 6 to 7 hours during the day, with processing and additional collecting at night during our stay. We do not expect to process all material while there. As such, it is expected that those participating also commit up to an additional 8 hours to process material at UCR. If anyone is new to specimen curation or would like a refresher session on it, please contact Adena or Michael prior to the trip.

There is lodging at a rate of $15 per night. There are 20 spaces in the lodge and beds will be reserved on a first-come-first-serve basis. In addition, people can camp outside for ~$10 per night (or potentially less). The lodge includes bathroom and showers, two kitchens, swimming pool, and spa. Each participant will be responsible for the cost of his or her own lodging. Individuals are also responsible for the cost of their own food and alcohol or can contribute money for a more organized purchase.

We will be supervised and assisted by two employees of the Cal. Dept of Fish and Wildlife who work at the national monument. The monument is home to the endangered San Joaquin kit fox and a herd of tule elk, among many other critters. The habitat types include: alkali scrub, oak forests and savannah, riparian and managed rangeland.

We are asking EGSA to sponsor the cost of 1 large 12-15 passenger van + gas in order to transport people. Depending on the number of people who commit to attend this trip, a smaller vehicle will be obtained. Additional cars will be by volunteer basis and the riders in those vehicles will be expected to share the cost of gas. High clearance vehicles are preferred as parts of the road are dirt with grasses growing on them. Projected cost of the vehicle rental plus gas will be up to $900. This is the cheapest alternative available, next to everyone deciding to volunteer vehicles and gas, in addition to lodging and food expenses.

Those participating will be expected to conduct themselves appropriately as we will be representing UCR and the Entomology Dept.
